### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the instantly claimed invention. There is no teaching in the art of crystallization to treat a solution with a laser pulse as set forth in the claims. The instant specification does show that the laser claimed does in fact affect the processing of the solution. The specification does show that the claimed process does create an unexpected result. Thus, there is no motivation in the art to modify the prior art processes to arrive at the instantly claimed invention. There are no teachings in the art to use the claimed laser and expect any results in the growth of crystals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
